

AGBOVIE RICHMOND OFOTSU

Backend Software Engineer

📍 Accra, Ghana 📞 +233 59 373 1945 ✉️ ofotsurich@gmail.com 🔗 linkedin.com/in/richierich170 🌐 github.com/Richmond-Ofotsu

SUMMARY

Backend Software Engineer with experience building and maintaining enterprise-grade **.NET** systems across HR, regulatory, and financial domains. Skilled in designing scalable services, implementing **CQRS** architectures, optimizing **SQL/EF Core** data access, and automating delivery through **CI/CD** pipelines. Contributed to production systems supporting employee appraisals, regulatory inspections, licensing, and fuel price reporting. Strong foundation in C#, ASP.NET Core, SQL Server, and secure authentication.

SKILLS

Languages: C#, SQL, Python, JavaScript
Backend: ASP.NET Core, .NET, EF Core, MediatR, SignalR, Django REST Framework
Architecture: CQRS, Clean Architecture, Modular Monolith, Domain-Driven Design
Databases: SQL Server, PostgreSQL, MySQL, AWS RDS
Security: OAuth2, OpenID Connect, JWT, Duende IdentityServer, RBAC
Cloud/DevOps: AWS, Docker, Git, GitHub Actions, CI/CD, RabbitMQ, Redis, Swagger/OpenAPI, Postman

EXPERIENCE

Persol Systems Limited

Jan 2026 – Present

Backend Developer, National Service Personnel

Accra, Ghana

Peronax HR & Payroll System

- Contributed backend features to **Peronax**, an enterprise HR and payroll platform used by companies across Ghana, focusing on the **employee appraisal module** with support for **360-degree appraisals** across multi-role reviewers.
- Maintained secure authentication and authorization flows using **Duende IdentityServer**, SSO, and RBAC; enforced transactional data integrity for appraisal workflows via **SQL Server**.

Enterprise Regulatory Data Management Platform

- Built backend modules for a multi-module **.NET** platform covering licensing, inspections, stock management, and price reporting, using **CQRS query handlers** and **EF Core** for scalable data access.
- Implemented the **Price Build-Up workflow** where OMCs and BDCs submit daily fuel prices to the National Petroleum Authority (NPA) prior to public publication.
- Developed resilient **background services** for scheduled/async processing and resolved backend issues across production systems, improving reliability and reducing recurring defects.

CI/CD & Engineering Productivity

- Authored **GitHub Actions pipelines** to automate build, testing, and deployment, reducing manual effort and preventing release-time errors.

Persol Systems Limited

Sept 2024 – Nov 2024

Software Development Intern

Accra, Ghana

- Built RESTful APIs with **ASP.NET Core** for production workloads handling **1,000+ daily requests**; improved endpoint performance by **30%** through MySQL query optimization and indexing.
- Collaborated with frontend engineers to implement secure login and authorization flows using **OAuth2** and **IdentityServer**.

Hues Apply

Jan 2024 – Aug 2024

Software Development Intern (Remote)

Remote

- Built scalable REST APIs with **Django REST Framework** and designed data models spanning **15+ relational tables** in PostgreSQL; achieved **95%+ endpoint coverage** through automated testing.
- Documented APIs with **Swagger/OpenAPI** to improve developer onboarding and third-party integration.

PROJECTS

Incident Reporter – Enterprise Incident Management System | .NET, React, Docker, RabbitMQ

2024

- Built a **4-module modular monolith** for incident reporting, tracking, and escalation workflows across enterprise teams.
- Integrated **RabbitMQ** for asynchronous inter-module communication and used **Docker** to standardize local development and deployment environments.

EDUCATION

University of Cape Coast

2022 – 2025

B.Sc. Computer Science | CGPA: 3.6/4.0

Cape Coast, Ghana

- Final Year Project:** *QuizQuest* – Secure academic assessment system built with Duende IdentityServer and AWS RDS.
- Relevant Coursework:** Data Structures & Algorithms, Database Systems, Software Engineering, Operating Systems.

CERTIFICATIONS & LEADERSHIP

- AWS Certified Cloud Practitioner** – Amazon Web Services
- Volunteer**, Golden Chapter Foundation (2025 – Present) – Digital content design and community outreach.
- Coordinator**, Science & Math Quiz (2020 – 2021) – Managed competitions with **100+ participants**.
